Director of CRA Department  
Bayer  
Sogongno 112, Sogong-ro, Jung-gu, Seoul, Korea

Dear Hiring manager,

I'm recently graduated from .... University, looking for an opportunity to start a career in CRA department in Bayer. I am writing to apply for Clinical research associate position. I believe I am the right candidate for Service in Bayer

Entering to the university, I've been interested in the Clinical research parts due to the classes such as 'Biopharmaceuticals', 'Biosafety' and 'Bio- food & drugs'. Completing my degree in Biology, I understood General psychological knowledge of process of clinical research in drugs and learned actual situation by making a simulation about things which happened really in organization with my project.

Highlights of my experience include the following:

Highlights of my job compatibility include the following:

- Internship in UMT, contract research organization.
  - Ability to organize and analyze tasks and projects & Awareness of health and safety
- Research & Development Internship in Hugel, pharmaceutical Corp.
  - Familiarity with both team and self-directed work
- Trained 'Introductory Course for Clinical Research' of Ministry for Food and Drug Safety.
  - Professional knowledge related to Clinical research

I've thought how I can make company grow with employee's satisfaction. Because I think the Organization's growth without individual's gratification is meaningless. Consequently, I want to make customers' happiness by using my ability and effort. My experiences and drive would be strong asset for your company.

I would be happy to have opportunity to explain how my ability and effort will contribute to your company. If you have any question you can call me 010-1234-5678. Thank you for your time and I look forward to hearing you soon.

Sincerely,  
Park Soo Jung
